Userstory			
As a user	I want to add tasks to my todo list.	So I have a list of things I need to do	
Classes	**Methods**	**Scenario**	**Outputs**
TodoList	AddTodo(sting with task description)	Add task	List of exciting tasks + new task
Userstory			
As a user	I want to see all the tasks in my todo list.	So I can see all the tasks on the list	
Classes	**Methods**	**Scenario**	**Outputs**
TodoList	See List of tasks	adding new tasks	List of exciting tasks + new task
	change task status	updating tasks complete/incomplete	List of exciting tasks + task status
		editing tasks	List of exciting tasks including the edited task
	I want to remove tasks from my list. delete(task)	deleting tasks	List of exciting tasks - deleted task
Userstory			
As a user	I want to change the status of a task between incomplete and complete.	So i can see which tasks are complete	
	see userstory above		
Userstory			
As a user	I want to be able to get only the complete tasks.	So I see only completed tasks	
Classes	**Methods**	**Scenario**	**Outputs**
TodoList	filterout incompleet tasks and only show completed tasks	change status of task	update list of completed tasks
Userstory			
As a user	I want to be able to get only the incomplete tasks.	So I see only incompleted tasks	
Classes	**Methods**	**Scenario**	**Outputs**
TodoList	filterout compleet tasks and only show incompleted tasks	change status of task	update list of incompleted tasks
		add new task	add to list of incompleted tasks
Userstory			
As a user	I want to search for a task and receive a message that says it wasn't found if it doesn't exist.	So I can check if a task is inside of List	

Classes	Methods		Scenario	Outputs
TodoList	search(List<String> tasks, String name)		if task in list	message task is in TodoList
			if task not in list	message task don't exist
Userstory				
As a user	I want to see all the tasks in my list ordered alphabetically in ascending order.		So can see my task from a-z	
Classes	**Methods**		**Scenario**	**Outputs**
TodoList	order list a-z			
Userstory				
As a user	I want to see all the tasks in my list ordered alphabetically in descending order.		So can see my task from z-a	
Classes	**Methods**		**Scenario**	**Outputs**
TodoList	order list z-a
